DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Perkowski U.S. Patent No. 6,625,581 and further in view of Official Notice.

Regarding claims 1-18, Perkowski teaches receiving data from a plurality of stores of a supply chain; allowing user access to the data utilizing a network-based interface, identifying the user accessing the interface, advertising to the user; wherein the network is the Internet; user includes at least one of a supplier, distributor or a store, advertising for the sale of production of goods (see col. 26 line 55 to col. 27 line 58, col. 32 line 33 to col. 36 line 35, col. 40 line 40 to col. 41 line 40 col. 42 line 43 to 43 line 13, col. 36 line 37 to col. 47 line 32, col. 54 line 37 line 55 line 29). Perkowski does not explicitly teach advertising to the user in accordance with the identification. Official Notice is taken that is old and well known in the art of advertisement to advertise in accordance with the user. One would be motivated to advertise based on user's identification by collecting user's demographic information for the purpose of providing targeted advertisement.
